

Brazil - Supplier to the World

Coffee production in Brazil is responsible for about a third of all coffee, making Brazil by far the world's largest producer, a position the country has held for the last 150 years. Coffee plantations, covering some 27,000 km² are mainly located in the southeastern states of Minas Gerais, São Paulo and Paraná where the environment and climate provide ideal growing conditions.

El Café's strong and long-lasting ties to shippers and growers in Brazil guarantee our access to the best coffees grown in the various regions with which we work. We are proud of the full range we can make available to our clients and work tirelessly to source new qualities.
